

Basil Chambers

Manchester City Centre

- Access scaffold
- Support scaffold
- Roof scaffold
- Façade scaffold
- Demolition scaffold

Scaffolding was required to all elevations of Basil Chambers to allow access for window replacement, stone cleaning, joinery, painting and other services.

The scaffold reached a height of 20 metres covering 6 storeys. Scaffolding included for the design of a large advertising banner to be incorporated on two elevations.

This city centre location had many Health & Safety challenges that needed to be overcome, such as both pedestrian and vehicle traffic. Vehicle traffic also included the local tramway, and as a result, Bolton Scaffolding had to take possession of the tramway for one elevation erection & dismantle at night time.

Bolton Scaffolding liaised closely with Manchester City Council, Greater Manchester Police and Highways Agency, GMPTC and Tramway with respect to hours of operation; scaffolding design; access and Health & Safety.

Bolton Scaffolding, safely bringing everything within reach.
